Dimensions: 375 x 300 x 170 mm

Weight: Approximately 4.6 kg

Ideal For: Home and small office use

Price: XAF 98,403 (approx. TSh 384,000)

Cartridge Type: Ink vs. Toner

The Epson Workforce WF-2850 uses liquid ink cartridges. Here's a comparison to help decide which is better:

1. ****Ink Cartridges (Liquid - Used in WF-2850):****

- Best for vivid color printing and photos.

- Lower upfront costs, ideal for moderate use.
- Requires occasional cleaning as ink may dry out if unused.

2. **Toner Cartridges (Powder):**

- Better for high-volume printing or text documents.
- Faster printing speed and longer-lasting.
- Higher upfront costs but lower long-term maintenance.

Recommendation: If you need high-quality color prints for home or small office use, the WF-2850's ink cartridges are a great choice. For high-volume printing, consider a laser printer with toner.
